

WEF 23 – Air space restrictions

The Federal Office of Civilian Aviation (FOCA) decrees and publishes air space restrictions. The air space is closed in the area from Davos Monstein to Schiers (red zone on the map), in particular for drones, hang gliders, paragliders, delta flyers, model helicopters, model planes and tethered balloons. Details will be published online under the following links as of December 29, 2022:
